

Technology & Application of PET Training Seminar

The PET container industry is still growing each year. Thanks to its excellent mechanical and barrier properties and its good recycling capability PET remains the packaging of choice for new products or for conversion from other packaging materials. Also filling technologies are evolving rapidly to meet the demands of filling products like beer, wine, dairy products and pure fruit juices.

This seminar provides up-to-date information on PET container technologies and offers the opportunity to discuss your specific applications and questions.

3-day PET seminar will cover

Day 1 - Technology & Application of PET

- PET manufacturing
- PET resin properties
- Preform injection moulding
- Blow moulding processing
- Preform & container development

Day 2 - Barrier PET

- Principles of permeation
- Measurement techniques
- Factors affecting barrier properties
- Container performances
- Barrier technologies
- Recycling of Barrier PET

Day 3 - Recycling PET

- PET recycling & European regulations
- Organizations involved in PET recycling
- Principle of recycling
- RPET applications
- Collection systems
- Sorting & washing technologies
- Upgrading technologies
- Regulations for food contact use
- Design parameters

Seminar Dates

13 - 15 March 2012

6 - 8 November 2012

Registration fee

EUR 850 per day/attendee or
EUR 2400 for all 3 days

** Fee includes registration,
course material, refreshments,
and lunch.*

Seminar Location

PTI-Europe

Parc Technologique - Y Parc
Rue Galilee 15,
CH - 1400 Yverdon-les-Bains, Switzerland
